

Demographic Transition Model

1. What is the demographic transition model and why do demographers use it as a tool when looking at population statistics?

2. Complete the following table by identifying what happens in each of the following stages.

Stage	Birth Rate	Death Rate	Population Growth	Other Details
1				
2				
3				
4				
5				

3. What are the advantages and disadvantages of reaching Stage 5 of the model?
